NOTE: The same grade of asphalt cement used in establishing the base average FOB terminal price shall be used in establishing the new average FOB terminal price.

Any introduction or withdrawal of a temporary voluntary allowance terminal operator's allowance or other discount offered to the trade in general from the posted price of asphalt cement at any of the above terminals will be considered, for purposes of price adjustment, as a change in the FOB terminal price.

In the event that one or more of the above named sources discontinue posting a price for asphalt cement, the base average FOB terminal price shall be recalculated by removing that location from the original base average FOB terminal price. All new average FOB terminal prices calculated from that date shall reflect the reduction in the number of reporting locations.

2. The new average FOB terminal price will be determined based on the above FOB terminal prices posted on the 20th of each month, hereafter known as the "Adjustment Date", during the contract period starting with **December 20, 2018**. However price adjustments, in accordance with the formula below, will be effective for deliveries made on and after the first day of the month following the adjustment date.

+Fuel Allowance represents allowance for energy (fuel, electricity, natural gas) used in the production of asphalt. It is a cost associated with the product and not intended to represent any trucking or hauling of product.

All materials with identical numbers preceding the decimal and identical first and second number after the decimal receive the price adjustment shown for the base materials.

Positive Price Adjustment number shall be added to original per ton Bid Price.

Negative Price Adjustment number shall be subtracted from original per ton Bid Price.

4. Work performed after the expiration of the contract, where no extension has been granted, (resultant from purchase orders placed prior to expiration of the contract) will receive the price adjustments in effect during the last month of the contract.

5. Price adjustments allowed by this contract shall be calculated and applied to the original bid price. There will not be a price adjustment unless the change amounts to more than \$.10 per ton from the original bid price.

6. If at any time after **January 1, 2019**, the average posted price of asphalt cement increases or decreases by \$10.00 per ton or more over or under the last average FOB posted price utilized by the County for adjustment purposes, the County may publish a special price adjustment which shall be effective eight (8) days subsequent to the date on which the change in the average FOB posted price became effective.

7. All price adjustments will be computed by calculator to three decimal places.
8. Regardless of price revisions allowed, at no time shall prices charged a County Contract participant be higher than those offered commercial or governmental accounts for similar or lower quantities.
9. Should these provisions result in a price structure which becomes unworkable, detrimental or injurious to the County or in prices which are not truly reflective of market conditions or which are deemed by the Commissioner of Public Works or his duly appointed representative to be unreasonable or excessive, and no adjustment in price is mutually agreeable, the Commissioner reserves the sole right upon ten days written notice mailed to the contractor to terminate any contract resulting from this bid opening.
