ITEM C697.1001 – PREVAILING WAGE ADJUSTMENT PAYMENT

DESCRIPTION:

This prevailing wage adjustment payment provides a contract contingency allowance for additional compensation to the Contractor for the potential increase in the delivery cost of materials delivered to the project job site. This potential increase is due to new state legislation (S255B), Section 1. Subdivision 3-a of section 220 of the labor law is amended by adding new paragraph f to read as follows: “*f. Prevailing wage shall be paid for work performed on a public works project pursuant to this section for any work involving the delivery to and hauling from such projects of aggregate supply construction materials, as well as any return hauls, whether empty or loaded and any time spend loading/unloading.*”

ELIGIBLE WORK:

Only the increased cost of the delivery of materials due to prevailing wage rate requirements will be eligible for the prevailing wage adjustment payment. A payment adjustment shall be made for materials delivered on public works projects pursuant to this section. Delivery to and hauling from the project job site of aggregate supply construction materials, as well as any return hauls, whether empty or loaded and any time spent load/unloading would be considered eligible under the amended labor law.

MATERIALS:

None specified.

CONSTRUCTION DETAILS:

None specified.

METHOD OF MEASUREMENT:

The prevailing wage rate adjustment payment will be measured on a Dollar Cents basis.

BASIS OF PAYMENT:

The basis of payment of the prevailing wage adjustment will be based on actual delivery cost increases as shown by supplied certified payroll versus affidavit of non-prevailing wage hourly rate and benefits. Only those aggregate supply construction materials associated with the project are eligible for adjustment. The Contractor shall provide the Engineer with a list of materials to which the Contractor opts to apply the prevailing wage rate adjustment. For each material, the Contractor shall also identify the parties, by name and role whose relationship establishes delivery of the aggregate supply construction material. The Contractor will be required to provide certified payroll for all claims of the prevailing wage rate adjustment payment. If the contractor does not provide a list of materials and the necessary information to justify the adjustment payment, no payment will be made.

Payment will be made under:
