July 14, 2020

Cattaraugus County Health Department was notified of two additional confirmed cases of COVID-19 residents within Cattaraugus County. The department's active positive COVID-19 caseload is now eleven as there are ninety-six residents who have recovered from COVID-19.

The one hundredth and tenth confirmed case is a female resident who resides in the northwest quadrant of the county, who has no significant travel history. She reports being at a family gathering on July 4<sup>th</sup> and days later developed fever, cough nausea, and diarrhea. She was tested for COVID-19 on July 12<sup>th</sup> and her test results on July 13<sup>th</sup> indicated that she was positive for the virus.

The one hundredth and eleventh confirmed case is a male resident who resides in the southeast quadrant of the county, who has no significant travel history. He reports being at a gathering on July 4<sup>th</sup> and later developed fever, headaches muscle aches and loss of smell. He was tested for COVID-19 on July 8<sup>th</sup> and his test results on July 14<sup>th</sup> indicated that he was positive for the virus.

The department has begun a thorough contact tracing investigation for those individuals that they have been in contact with, and the places that they have visited.

We would like to reiterate that if any resident experience fever, cough, shortness of breath or whole body aches they should contact their health care provider (avoid going directly to an Urgent Care facility, or the Emergency Room before calling).

In addition, wash your hands often with soap and water for at least 20 seconds. This is especially important after using the bathroom, coughing, sneezing or blowing your nose.

If soap and water is not available, use an alcohol-based hand sanitizer that contains a minimum of 60% alcohol.

Avoid touching your eyes, nose and mouth, especially with unwashed hands.

Disinfect commonly touched surfaces with a cleaner that is approved by the EPA against COVID-19.

Finally, in an effort to determine the prevalence of COVID-19 in our community, any resident interested in getting tested, can register for a test at [www.cattco.org/covid-19-test](http://www.cattco.org/covid-19-test) or call 716-938-9119 or 716-938-2265.
