****For Immediate Release****

July 28, 2020

Cattaraugus County Health Department was notified of four additional confirmed cases of COVID-19 residents within Cattaraugus County. The department's active positive COVID-19 caseload is now eleven as there are one-hundred and nine residents who have recovered from COVID-19.

The one hundredth and twenty first confirmed case is a male resident who resides in the southeast quadrant of the county, who reports no significant travel history or any direct contact with a positive COVID-19 person. He developed sinus congestion and sore throat, and was tested for COVID-19 on July 23rd. His test results on July 28th indicated that he was positive for the virus.

The one hundredth and twenty second confirmed case is a female resident who resides in the southeast quadrant of the county, who reports no significant travel history or any direct contact with a positive COVID-19 person. She developed headaches, chills and fatigue and was tested for COVID-19 on July 27th and her test results on July 28th indicated that she was positive for the virus.

The one hundredth and twenty third confirmed case is a female resident who resides in the southeast quadrant of the county, who reports no significant travel history. She is a healthcare worker and reports having direct contact with a positive COVID-19 person. She reports being asymptomatic (no fever, no cough, no body aches, etc.) and was tested for COVID-19 on July 27th and her test results on July 28th indicated that she was positive for the virus.

The one hundredth and twenty fourth confirmed case is a male resident who resides in the southeast quadrant of the county, who reports recent travel from Montana. He is a healthcare worker but denies any direct contact with a positive COVID-19 person. He reports being asymptomatic (no fever, no cough, no body aches, etc.) and was tested for COVID-19 on July 27th as a requirement of all healthcare workers traveling from states with community wide spread of COVID-19. His test results on July 28th indicated that she was positive for the virus.

The department has begun a thorough contact tracing investigation for those individuals that they have been in contact with, and the places that they have visited.

Finally, in an effort to determine the prevalence of COVID-19 in our community, any resident interested in getting tested, can register for a test at www.cattco.org/covid-19-test or call 716-938-9119 or 716-938-2265.
