\*\*\*\*For Immediate Release\*\*\*\*  
November 12, 2020

Cattaraugus County Health Department was notified of twenty additional confirmed cases of COVID-19 residents within Cattaraugus County. The department's active positive COVID-19 caseload is now one hundred and twenty as there are four hundred and forty four residents who have recovered from COVID-19.

The five hundred and sixty sixth confirmed case is a male resident who resides in the southeast quadrant of the county, who denies any significant travel history or being in direct contact with a positive COVID-19 person. He is a healthcare worker who was tested for COVID-19 on November 9<sup>th</sup> as part of a weekly requirement to test employees and his test results on November 11<sup>th</sup> indicated that he was positive for the virus.

The five hundred and sixty seventh confirmed case is a male resident who resides in the southeast quadrant of the county, who denies any significant travel history or being in direct contact with a positive COVID-19 person. He recently developed cough, congestion, runny nose and shortness of breath. He was tested for COVID-19 on November 6<sup>th</sup> and his test results on November 11<sup>th</sup> indicated that he was positive for the virus.

The five hundred and sixty eighth confirmed case is a female resident who resides in the southeast quadrant of the county, who denies any significant travel history. She reports being in direct contact with a positive COVID-19 person and recently developed fever, cough, and headaches. She was tested for COVID-19 on November 9<sup>th</sup> and her test results on November 11<sup>th</sup> indicated that she was positive for the virus.

The five hundred and sixty ninth confirmed case is a young male resident who resides in the southeast quadrant of the county, whose parent denies any significant travel history. The parent reports he was in direct contact with a positive COVID-19 person but also reports he is asymptomatic, (no fever, no cough, no body aches etc.). He was tested for COVID-19 on November 9<sup>th</sup> and his test results on November 11<sup>th</sup> indicated that he was positive for the virus.

The five hundred and seventieth confirmed case is a male resident who resides in the northeast quadrant of the county, who denies any significant travel history or being in direct contact with a positive COVID-19 person. He reports being asymptomatic, (no fever, no cough no body aches, etc.). He was tested for COVID-19 on November 9<sup>th</sup> as part of a pre-op test requirement and his test results on November 11<sup>th</sup> indicated that he was positive for the virus.
