****For Immediate Release****
May 28, 2020

Cattaraugus County Health Department was notified of three additional confirmed cases of COVID-19 residents within Cattaraugus County. The department's active positive COVID-19 caseload is now seventeen as there are forty-six residents who have recovered from COVID-19.

The sixty-fourth confirmed case is a male resident who resides in the northwest quadrant of the county, who is a direct contact to a known positive COVID-19 person. He was tested for COVID-19 on May 26th since he developed fever, cough, shortness of breath and body aches and on May 27th his test results indicated that he was positive for the virus.

The sixty-fifth confirmed case is a female resident who resides in the northeast quadrant of the county, who is a health care worker in a nursing home in Cattaraugus County. She was tested for COVID-19 on May 22nd as part of a recent requirement of all nursing home employees and on May 27th her test results indicated that she was positive for the virus. She reports being asymptomatic (no cough, no fever, no body aches, etc.) for the most part and denies any contact with a known positive COVID-19 person.

The sixty-sixth confirmed case is a male residents who resides in the northeast quadrant of the county, who is a direct contact to a known positive COVID-19 person. He reports being asymptomatic (no cough, no fever, no body aches, etc.) but was tested for COVID-19 on May 26th and on May 27th his test results indicated that he was positive for the virus.

The department has begun a thorough contact tracing investigation for those individuals that they have been in contact with, and the places that they have visited.

We continue to ask our residents to hunker down, and avoid any non-essential travel, especially to areas where there is community wide spread of COVID-19 otherwise, you place your family and other Cattaraugus County residents at risk. If travel is necessary, please wear a face covering while in public and maintain social distancing, at least 6 feet away from other people.

We would like to reiterate that if any resident experience fever, cough, shortness of breath or whole body aches they should contact their health care provider (avoid going directly to an Urgent Care facility, or the Emergency Room before calling).

Finally, in an effort to determine the prevalence of COVID-19 in our community, any resident interested in getting tested, can register for a test at www.cattco.org/covid-19-test or call 716-938-9119 or 716-938-2265.
